Quarterly Review of European Medicine
Official Journal
of the Italian Medical Association
Official Journal of "Europa Medica"

PANMINERVA MEDICA

VOLUME 32 - 1990

Index

Subjects Index

Acquired immunodeficiency syndrome
Cardiac toxoplasmosis in pathology of acquired immunodeficiency syndrome, 194.

Adolescents
Comparison of growth hormone-releasing effect of growth hormone-releasing hormone, clonidine and pyridostigmine in normal children and adolescents. GH-releasing effect of GHRH, clonidine and pyridostigmine, 1.

Adult
Intussusception in adults, 118.

Aging
Is the fusion process the basis for growth, repair and aging?, 132.

AIDS
Cardiac toxoplasmosis is pathology of acquired immunodeficiency syndrome, 194.

Amblyopia
A new method for visual efficiency evaluation, 128.

Aneurysms, post-traumatic
Post-traumatic aneurysms of splanchnic arteries, 145.

Angiodynography
New diagnostic and screening possibilities in the stenobliterative lesions of the deep visceral vessels, 155.

Angiography
Gastric angiography: data for oesophagogastroplasty, 61.

Antiandrogen
Oral and topical spironolactone therapies in skin androgenization, 49.

Antilipemic drugs
Study of mepartricin possible interactions with antilipemic drugs. Controlled clinical trials in patients with benign prostatic hyperplasia, 122.

Aortic trauma
Traumatic pathology of the thoracic aorta. Personal experience based on 42 cases, 28.

Arterial hypertension
Role of Ca^{++} antagonists (nifedipine) in the long-term prognosis of hypertensive patients with previous history of myocardial infarction, 39.

Arteriography
Gastric angiography: data for oesophagogastroplasty, 61.

Betathromboglobulin
Effects of an oral fat load on some prothrombotic markers in coronary heart patients, 101.

Bioelectronic connectional system
The bioelectronic connectional system (BCS): a therapeutic target for non-ionizing radiation, 10.

Bone turnover
Modifications of the bone turnover in operated patients of bilateral ovariectomy, 176.

Breast cancer
Could the sexual partner be a risk factor in breast cancer?, 181.
Long-term relapses in breast cancer patients, 32.

Bruch membrane lesions
Effects of oxygen-ozone therapy on age-related degenerative retinal maculopathy, 77.

Ca^{++} antagonists
Role of Ca^{++} antagonists (nifedipine) in the long-term prognosis of hypertensive patients with previous history of myocardial infarction, 39.

Calcium-antagonists
The use of nimodipine (Nimotop-Bayer) in patients with chronic ischemic cerebral vasculopathies. Twenty-eight case reports, 85.

Cancer of the breast
Could the sexual partner be a risk factor in breast cancer?, 181.
Long-term relapses in breast cancer patients, 32.

Carcinoma of the esophagus
Clinical importance of tumour markers in the diagnosis of squamous-cell carcinoma of the esophagus, 105.

Cardiac function
Experimental study on the correlation between cardiac function and ovarian hormones, 65.

Cardiac toxoplasmosis
Cardiac toxoplasmosis in pathology of acquired immunodeficiency syndrome, 194.

Cellular communication
A hydrogen-harps model for intracellular communication and its implications for the second genetic code, 4.

Cerebral vasculopathies
The use of nimodipine (Nimotop-Bayer) in patients with chronic ischemic cerebral vasculopathies. Twenty-eight case reports, 85.

Children
Comparison of growth hormone-releasing effect of growth hormone-releasing hormone, clonidine and pyridostigmine in normal children and adolescents. GH-releasing effect of GHRH, clonidine and pyridostigmine, 1.

Chronic obstructive pulmonary disease
Respiratory function during oxygen administration in chronic obstructive pulmonary disease, 25.

Chronic pancreatitis
Screening a family for hereditary chronic pancreatitis, 19.

Clonidine
Comparison of growth hormone-releasing effect of growth hormone-releasing hormone, clonidine and pyridostigmine in normal children and adolescents. GH-releasing effect of GHRH, clonidine and pyridostigmine, 1.

Collagen
The bioelectronic connectional system (BCS): a therapeutic target for non-ionizing radiation, 10.

Congenital ichthyosis
Harlequin fetus: a case report, 96.

Contrast sensibility
A new method for visual efficiency evaluation, 128.

Coronary heart disease
Effects of an oral fat load on some prothrombotic markers in coronary heart patients, 101.

Creatine
Insulin receptors in children erythrocytes. Study on aging cells, 108.

Cystic fibrosis
Cystic fibrosis complicated by Hodgkin's lymphoma, 149.

Cytoskeleton
The bioelectronic connectional system (BCS): a therapeutic target for non-ionizing radiation, 10.

D-Dimer
Effects of an oral fat load on some prothrombotic markers in coronary heart patients, 101.

Degenerative maculopathy
Effects of oxygen-ozone therapy on age-related degenerative retinal maculopathy, 77.

Desmosomes
The bioelectronic connectional system (BCS): a therapeutic target for non-ionizing radiation, 10.

Drug addicts
Low prevalence of HTLV-I infection in drug addicts in Turin, 126.

Elderly-animal
Elderly-animal postmortem attachment, 92.

Electromagnetics human
The intrinsic electro-gravitational mechanism of life, the basis of neoplasie and the clinical method of repair, 159.

Endocrine system/heart
Experimental study on the correlation between cardiac function and ovarian hormones, 65.

Erotism
Could the sexual partner be a risk factor in breast cancer?, 181.

Erythrocyte insulin binding
Insulin receptors in children erythrocytes. Study on aging cells, 108.

Esophagus
Clinical importance of tumour markers in the diagnosis of squamous-cell carcinoma of the esophagus, 105.

Etretinate
Harlequin fetus: a case report, 96.

Eye circulatory disorders
Effects of oxygen-ozone therapy on age-related degenerative retinal maculopathy, 77.

Femoro-femoral by-pass graft
Unilateral iliofemoral occlusion. Report of a 11-year experience, 71.

Fertility
The effect of urethral stricture on male fetility in Ife, 172.

Fetal spine
Volumetric growth of the different regions of the fetal spine, 190.

Flowmeters
Laser-Doppler flowmetry in the assessment of "mild" Raynaud's phenomenon and its treatment, 151.

Fusion process
Is the fusion process the basis for growth, repair and aging?, 132.

Galilean inertial velocity
Is the fusion process the basis for growth, repair and aging?, 132.

Gastric angiography
Gastric angiography: data for oesophagogastroplasty, 61.

Genetic code, second
A hydrogen-harps model for intracellular communication and its implications for the second genetic code, 4.

Growth hormone
Comparison of growth hormone-releasing effect of growth hormone-releasing hormone, clonidine and pyridostigmine in normal children and adolescents. GH-releasing effect of GHRH, clonidine and pyridostigmine, 1.

Growth, volumetric
Volumetric growth of the different regions of the fetal spine, 190.

Harlequin fetus
Harlequin fetus: a case report, 96.

Hepatic steatosis
Hypoechoic images in hepatic steatosis: a recent ultrasound finding in differential diagnosis of space-occupying lesions of the liver, 112.

Heart
Cardiac toxoplasmosis in patology of acquired immunodeficiency syndrome, 194.
Experimental study on the correlation between cardiac function and ovarian homones, 65.

Hereditary
Screening a family for hereditary chronic pancreatitis, 19.

Hodgkin's lymphoma
Cystic fibrosis complicated by Hodgkin's lymphoma, 149.

HTLV-I infection
Low prevalence of HTLV-I infection in drug addicts in Turin, 126.

Human fetus
Volumetric growth on the different regions of the fetal spine, 190.

Hydrogen bonds
A hydrogen-harps model for intracellular communication and its implications for the second genetic code, 4.

Hydrogen-harps model
A hydrogen-harps model for intracellular communication and its implications for the second genetic code, 4.

Hypertension
Role of Ca^{++} antagonists (nifedipine) in the long-term prognosis of hypertensive patients with previous history of myocardial infarction, 39.

Hypoechoic areas
Hypoechoic images in hepatic steatosis: a recent ultrasound finding in differential diagnosis of space-occupying lesions of the liver, 112.

IBEMF's
Is the fusion process the basis for growth, repair and aging?, 132.

Immunoglobulin
Serum immunoglobulin status of psychiatric in-patients, 88.

Intestinal obstruction
Intussusception in adults, 118.

Intestinal perforation
Free perforation of small intestine in adults, 67.

Intestinal tuberculosis
Tuberculous enteritis. Forgotten but not gone, 197.

Intussusception
Intussusception in adults, 118.

Islet cells neoplasms
Pancreatic somatostatinoma, 141.

Jacobson resonance
Is the fusion proceess the basis for growth, repair and aging?, 132.

Keratins
The bioelectronic connectional system (BCS): a therapeutic target for non-ionizing radiation, 10.

Koch's bacillus
A case of subprimary suprarenal tuberculosis, 199.

Laser-Doppler flowmetry
Laser-Doppler flowmetry in the assessment of "mild" Raynaud's phenomenon and its treatment, 151.

Long-term relapses
Long-term relapses in breast cancer patients, 32.

Lymphoma
Cystic fibrosis complicated by Hodgkin's lymphoma, 149.

Male fertility
The effect of urethral stricture on male fertility in Ife, 172.

Menstrual cycle
Experimental study on the correlation between cardiac function and ovarian hormones, 65.

Mepartricin
Study of mepartricin possible interactions with antilipemic drugs. Controlled clinical trials in patients with benign prostatic hyperplasia, 122.

Monocycline
Treatment of pelvic inflammatory disease with combined piperacillin and minocycline therapy, 184.

Myocardial infarction
Role of Ca^{++} antagonists (nifedipine) in the long-term prognosis of hypertensive patients with previous history of myocardial infarction, 39.

Myocarditis
Cardiac toxoplasmosis in pathology of acquired immunodeficiency syndrome, 194.

Neoplasia
The intrinsic electro-gravitational mechanism of life, the basis of neoplasia and the clinical method of repair, 159.

Nifedipine
Role of Ca^{++} antagonists (nifedipine) in the long-term prognosis of hypertensive patients with previous history of myocardial infarction. 39.

Nimodipine
The use of nimodipine (Nimotop-Bayer) in patients with chronic ischemic cerebral vasculopathies. Twenty-eight case reports, 85.

Non-ionizing radiation
The bioelectronic connectional system (BCS): a therapeutic target for non-ionizing radiation, 10.

Octotype
A new method for visual efficiency evaluation, 128.

Oesophagogastroplasty
Gastric angiography: data for oesophagogastroplasty, 61.

Osteoporosis, postmenopausal
Modifications of the bone turnover in operated patients of bilateral ovariectomy, 176.

Ovarian hormones
Experimental study on the correlation between cardiac function and ovarian hormones, 65.

Ovariectomy
Modifications of the bone turnover in operated patients of bilateral ovariectomy, 176.

Oxygen administration
Respiratory function during oxygen administration in chronic obstructive pulmonary disease, 25.

Oxygen-ozone therapy
Effects of oxygen-ozone therapy on age-related degenerative retinal maculopathy, 77.

Pancreatic neoplasms
Pancreatic somatostatinoma, 141.

Pelvic inflammatory disease
Treatment of pelvic inflammatory disease with combined piperacillin and minocycline therapy, 184.

Perforation of small intestine
Free perforation of small intestine in adults, 67.

Piperacillin
Treatment of pelvic inflammatory disease with combined piperacillin and minocycline therapy, 184.

Pituitary adenomas
The treatment of prolactin-secreting pituitary adenomas. An update, 56.

Plasminogen
Effects of an oral fat load on some prothrombotic markers in coronary heart patients, 101.

Post-infarction
Role of Ca^{++} antagonists (nifedipine) in the long-term prognosis of hypertensive patients with previous history of myocardial infarction, 39.

Postmortem attachment
Elderly-animal postmorten attachment, 92.

Post-traumatic aneurysms
Post-traumatic aneurysms of splanchnic arteries, 145.

Progesterone
Experimental study on the correlation between cardiac function and ovarian hormones, 65.

Prolactin
The treatment of prolactin-secreting pituitary adenomas. An update, 56.

Prostatic hyperplasia
Study of mepartricin possible interactions with antilipemic drugs. Controlled clinical trials in patients with benign prostatic hyperplasia, 122.

Prothrombotic markers
Effects of an oral fat load on some prothrombotic markers in coronary heart patients, 101.

Psychiatric in-patients
Serum immunoglobulin status of psychiatric in-patients, 88.

Pyridostigmine
Comparison of growth hormone-releasing effect of growth hormone-releasing hormone, clonidine and pyridostigmine in normal children and adolescents. GH-releasing effect of GHRH, clonidine and pyridostigmine, 1.

Pyruvate kinase
Insulin receptors in children erythrocytes. Study on aging cells, 108.

Raynaud's phenomenon
Laser-Doppler flowmetry in the assessment of "mild" Raynaud's phenomenon and its treatment, 151.

Releasing hormone
Comparison of growth hormone-releasing effect of growth hormone-releasing hormone, clonidine and pyridostigmine in normal children and adolescents. Gh-releasing effect of GHRH, clonidine and pyridostigmine, 1.

Respiratory function
Respiratory function during oxygen administration in chronic obstructive pulmonary disease, 25.

Retinal maculopathy
Effects of oxygen-ozone therapy on age-related degenerative retinal maculopathy, 77.

Retinal pigmented epithelium lesions
Effects of oxygen-ozone therapy on age-related degenerative retinal maculopathy, 77.

Screening
Screening a family for hereditary chronic pancreatitis, 19.

Serum immunoglobulin stress
Serum immunoglobulin status of psychiatric in-patients, 88.

Skin androgenization
Oral and topical spironolactone therapies in skin androgenization, 49.

Small intestine
Free perforation of small intestine in adults, 67.

Somatostatinoma
Pancreatic somatostatinoma, 141.

Space-occupying lesions
Hypoechoic images in hepatic steatosis: a recent ultrasound finding in differential diagnosis of space-occupying lesions of the liver, 112.

Spironolactone
Oral and topical spironolactone therapies in skin androgenization, 49.

Splanchnic arteries
Post-traumatic aneurysms of splanchnic arteries, 145.

Stenobliterative lesions
New diagnostic and screening possibilities in the stenobliterative lesions of the deep visceral vessels, 155.

Stomach
Gastric angiography: data for oesophagogastroplasty, 61.

Suprarenal tuberculosis
A case of subprimary suprarenal tuberculosis, 199.

Thoracic aorta
Traumatic pathology of the thoracic aorta. Personal experience based on 42 cases, 28.

Thrombosis
Effects of an oral fat load on some prothrombotic markers in coronary heart patients, 101.

Toxoplasma gondii
Cardiac toxoplasmosis in pathology of acquired immunodeficiency syndrome, 194.

Traumatic pathology
Traumatic pathology of the thoracic aorta. Personal experience based on 42 cases, 28.

Tuberculosis
A case of subprimary suprarenal tuberculosis, 199.
Tuberculous enteritis. Forgotten but not gone, 197.

Tuberculous enteritis
Tuberculous enteritis. Forgotten but not gone, 197.

Tumour markers
Clinical importance of tumour markers in the diagnosis of squamous-cell carcinoma of the esophagus, 105.

Urethral stricture
The effect of urethral stricture on male fertility in Ife, 172.

Vascularisation
Gastric angiography: data for oesophagogastroplasty, 61.

Vessels
New diagnostic and screening possibilities in the stenobliterative lesions of the deep visceral vessels, 155.
